## Why buy an aluminum boat?

1. Aluminum boats are affordable. You get more bang for your buck with an aluminum boat.
2. Aluminum boats, because of their lighter weight, are easier to handle by one person.
3. Aluminum boats require smaller, lighter and therefore less expensive engines.
4. Aluminum boats are easier to tow behind today's smaller cars. (A Lowe 16' Big Jon [275 lbs.], 25 H.P. Yamaha [181 lbs.], trailer [290 lbs.] and 100 lbs. of gear only weighs 846 lbs. Even the smallest of cars will usually tow at least 1000 lbs.)
5. Aluminum boats are virtually maintenance free.
6. Aluminum boats are made in many different sizes and shapes to fit almost any need. Larger jon boats are especially versatile.
7. Aluminum boats can be used in salt or fresh water.
8. Aluminum boats are worry free. (Say you scratch your boat. If it was fiberglass, most people would go into mourning; with an aluminum boat, most people say "big deal" and keep riding.)
9. Aluminum boats hold their resale value better than most other boats. 10. Aluminum boats are fun. How do you beat a day on the water with your family or friends in an affordable jon boat?

## Why buy a boat at A.K. McCallum Co.?

1. At press time we have 226 boats in stock.
2. We have been in business since 1945 and all of our sales and service employees average 19 years of experience.
3. We have knowledgeable full-time factory trained service technicians.
4. We have experienced, helpful sales people and we operate without any high pressure sales gimmicks.
5. We buy in super large quantities and pass these volume savings along to you.
6. We stock one of the largest selections of marine accessories in the state.
7. We own and use jon boats.
8. We are serious about aluminum jon boats. We don't sell them as a sideline or an afterthought.
9. We treat our customers like family and in an open businesslike manner.
10. We want your business and will strive to earn it.
11. We can offer you great prices and tremendous selection. We make it possible to pick up everything you will need for your jon boat in one trip here. You will not have to hunt all over the country for a boat or specialty item that no one else will have. We are serious about the jon boat business. If you are interested in a jon boat, we are sure it will be worth your time to check us out!

## Often Asked Questions and Answers

### Q. Why is it so hard to find a used jon boat?

A. Simply, people that buy them like them and they don't want to get rid of them. People are more inclined to hold on to a jon boat since they don't have to worry about any maintenance on it.

### Q. Do you sell used jon boats?

A. Yes, we do get a few trade-ins. (Other good places to look are the newspaper, craigslist or trader-type publications.) We have found, though, that often times a used jon boat (after adding seats, carpet, electric motors, etc.) is more expensive than a comparable new jon boat.

### Q. Which is the best brand of aluminum boat?

A. You really have to compare exact specifications and design from the exact size boat you want. All companies make different gauge and size models. A company may make one size boat real well and not have a real good design on a different size, for example. Our buyers go to shows across the country each year, they are constantly searching to find top-notch products at reasonable prices. Our six manufacturers are all at the top of the aluminum boat industry and we sell their best boats.

### Q. What does gauge metal mean?

A. The gauge is simply the thickness of the metal, measured in thousandths of an inch. Hence the higher the gauge, the thicker the metal.

### Q. What is the difference between a riveted and welded boat?

A. A riveted boat's ribs and braces are held in place with marine rivets, while a welded boat's ribs and braces are spot-welded in place. Generally, only larger boats are available in all-welded construction and they are a little more expensive than riveted boats.

### Q. What is the difference between a flat bottom jon boat and a modified V?

A. A modified V boat has a slight angle at the front to help chop its way through the water. A pure flat bottom boat is flat at the front and will bounce on top of the water. A modified V front will give you a better ride in rougher water. In calmer water both boats will perform the same. Modified V hull boats generally cost about 10% more.

### Q. What determines whether a boat needs a short or long shaft motor?

A. The height of the transom is the only factor that matters. A boat with a 15" or 16" transom needs a short shaft motor. A boat with a 20" or 21" transom needs a long shaft motor.

### Q. How big of a boat do I need to move around in?

A. In general terms, most people need a boat with a 36" bottom to comfortably walk around in. The length of the boat will make very little difference in terms of stability. A boat with a 48" bottom is exceptionally stable. Several people can move around in a boat of this size.

### Q. Do you sell boat packages?

A. Yes and no. (That's a real good answer, isn't it?) Most boat dealers now will not break up boat, motor, and trailer packages and sell you what you need. With the exception of a few products, we will sell you just a boat, motor, or trailer. We also assemble some of our own packages to help you decide which works best for you, and we offer special motor pricing if you buy the complete package from us. A few of our boat lines can only be purchased and sold as packages and we designate these in our catalog.

### Q. Are these prices negotiable?

A. No. We make every effort to have the lowest prices on jon boats and related equipment as anyone anywhere. Our volume buying power allows us to do this. We are proud of our low prices. How many dealers do you know that publish their prices in a catalog? (A lot of dealers don't even give out prices on the phone!) We will be glad to spend all the time you want to find the best equipment for your needs, but we will not argue over prices with you.

### Q. How soon can I use a boat after I buy it?

A. Immediately! Upon purchase, the dealer's bill of sale will serve as a 60 day temporary boat registration. We can also handle the trailer license and title for the appropriate fees. We can also handle the boat registration and title as shown on page 51.

### Q. What are your store hours?

A. Monday-Friday: 8:00 A.M.–5:00 P.M. and Saturday: 8:00 A.M.– 1:00 P.M. We are closed on Sundays.

### Q. Can you stay after hours?

A. No, we have planned activities we're committed to during the week and weekends. Please allow necessary time for travel and business to be completed during regular business hours. (Check map directions)

### Q. How do I find your store?

A. See page 51 for maps and easy directions.

### Q. What are your methods of payment?

A. We take personal checks (pending verification, with proper identification), Mastercard, Visa, and yes, we gladly accept cold cash.

#### **Credit Card Customer Important Notice!**

Please check in advance with your credit/debit card lender to be assured you can access the funds necessary for the amount of purchase you desire. Most companies hide a safety limit so you can only charge a limited amount in one day in case your card is stolen, therefore your card will be declined.

### Q. Do you ship accessories?

A. Yes, we will be glad to ship any accessory via UPS.

### Q. Do you ever have any closeouts or damaged boats for sale?

A. Yes, we constantly review our line-up of boats and have manufacturer's discontinued boats available at added savings. Occasionally we have clearance, dented, and faded boats also available with savings. A separate listing is enclosed as our selection changes frequently. Check our website for updated list.

### Q. Do you sell tunnel boats and why do you use a tunnel?

A. Yes, we offer a few models. A tunnel is used to allow a boat to run generally in 3-5" of shallower water depth. There are some performance problems and should be used in only extreme cases like rocky rivers or shallow sounds.

### Q. Do you sell jet motors and why do you use a jet?

A. Yes, we offer a few models. Jets are used to achieve the shallowest running boat & engine combination. Manufacturers recommend not using a jet on a tunnel boat. Occasionally, a jack plate or riser is required to get proper installation height. Jet motors use more fuel, are more sluggish in turns, and suffer a 25-30% drop in power.

### Inventory Check

A.K. McCallum Co. checks our inventory daily, and attempts to keep the boats listed in our catalog in stock at all times. Due to circumstances beyond our control, this is not always possible. Before traveling a long distance for purchases, please call 1-800-682-2628 to check our inventory.

6 Hp thru 20 Hp features a 3 Gallon Remote Tank, Hose And Propeller. 25 Hp and 30 Hp Feature 6 Gallon Fuel Tank, Fuel Hose, And Propeller. 40 Hp And 50 Hp Features a 6, 9, or 12 Gallon Fuel, Fuel Hose And Propeller. All Tohatsu Remote Start Four Stroke Models Include Control Box, Shift Cables, Fuel Tank, and Propeller.

**BACK** With your purchase of a complete boat, motor, and trailer package, you receive a \$4.00 per horsepower rebate on the motor price. To qualify, you must purchase all three pieces at the same time and transaction.  
**NOTICE:** You save 4% on tax when you purchase a motor with a boat; a motor purchased by itself is taxed 7% and when purchased with a boat, the tax is 3%.

**NEW** For 2019: The Tohatsu 9.8 HP Motor is still available as a carbureted motor. The NEW 9.9 join's all Tohatsu motors 15 HP and larger, as fuel injected motors.

## PowerTech! PROPELLERS Stainless Steel Propellers

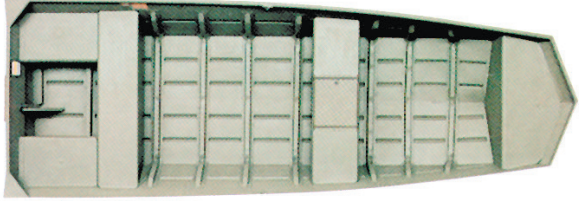

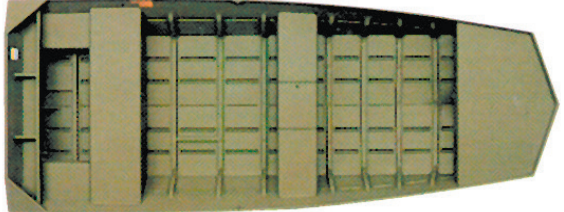

A.K. buys these propellers directly from the factory, which allows us to offer huge savings.  
 These propellers offer top quality, durability, and performance

## CREEK BOATS

- These boats are lightweight plastic sneak-type boats
- M80 and M98 are primarily designed to be paddled and are very lightweight
- M10, M11 and M12 are designed to be steered with foot pedals and have livewells

## Minn Kota Electric Motors

We stock five models of Endura Transom Mount Motors. We have four models of Endura Max Transom Mount Motors with built-in maximizers and two Rip-Tide Bow Mount Models for salt water fishing. Standard features on all Minn Kota motors include weedless propellers, computer-designed motors with heavier wiring, high efficiency switches for one hand total control, extra tough transom brackets, and a two-year warranty.

Model	Mount	Control	Shaft Length	Speeds	Volts	Thrust	Price
Endura 30 C2	Transom	Hand	30"	5	12	30	<b>\$119.99</b>
Endura 40 C2	Transom	Hand	36"	5	12	40	<b>\$118.99</b>

## Minn Kota® Portable Charger

Designed to restore proper charge to trolling batteries faster without over-or undercharging. 3-stage charging (bulk, absorption & maintenance). LED display indicates power ON, charging, full charge & check connection. Low-line voltage compensation delivers true-rated output even when input voltage drops. Waterproof, shock- & vibration-resistant. Short circuit & reverse polarity protection prevents charger from operating if improperly connected to battery. For use with 12V/6-cell batteries (50-130 amp hour rating that are flooded/wet cell, maintenance-free or starved electrolyte only). FCC compliant. UL listed to marine standard 1236. Full 3-year warranty.

## Steering Systems, and Storage Boxes

### TELEFLEX/MORSE SAFE-T QUICK CONNECT (QC) STEERING SYSTEM

The Safe-T System is the OEM choice for safe, simple, reliable steering for boats up to 24 feet range. To enhance the simplicity of this design, Teleflex/Morse offers the Safe-T Quick Connect system. This system does not require tools to connect the cable to the helm, therefore reducing installation time up to 50%. Teleflex/Morse has also trapped the nut on the engine end which saves time chasing coupler nuts during engine installation. 8' through 20' cables available in stock.

**APPLICATION:**

- Boats up to 24 feet
- Steering wheels up to 16"
- Single Engines
- O/B Runabouts
- Bass Boats
- Pontoon boats
- Small cruisers

compare at \$269.99  
 A.K.'s Price **\$229.99** (with wheel)  
 Without Steering Wheel **\$194.99**

### Ezy-Glide Inc.

\*New Model #840

## Side and Center Consoles

### Lowe Steering Side Console

This console, manufactured by Lowe, will fit most aluminum boats. It is 24" wide and the height is adjustable from 21" to 32". An aluminum bracket is also included for mounting an outboard motor control box. This console is rugged and very functional. The 24" piece of aluminum provided can be cut and mounted to ribs so the adjustable leg can anchor to it.

A.K.'s Price **\$239.99**

Windshield for Lowe Console **\$99.99**

### Alumacraft Side Console

Fits most Alumacraft and many other boats. It has an adjustable leg for height adjustment, control box mount, bars to go between ribs and mounting fasteners. Face of console is backed with thick plywood

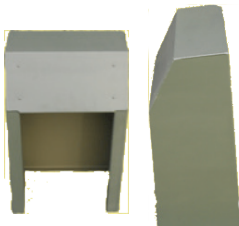

A.K.'s Price **\$299.99**

Windshield for Alumacraft Console **\$89.99**

### Low Center Console

This is the perfect center console for aluminum boats up to 17 feet. It is 19" wide and 13" deep. 30" High

A.K.'s Price **\$239.99**

### Alumacraft Center Console

This is the perfect center console for aluminum boats over 14 feet. The front box can be used as dry storage or turned into a live-well. It is 30" high, 33" in length, 19" wide, and the seat height is 15."

A.K.'s Price **\$599.99**

Windshield **\$99.99** Grab Rail **\$149.99**

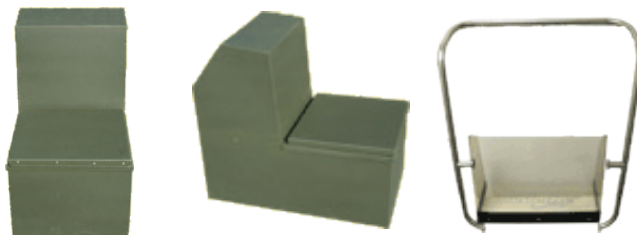

### Sea Ark Alaskan Console

Designed for stand up steering. Takes up very little room. 40" High, 18" wide, and 12" Deep.

A.K.'s Price **\$399.99**

Windshield Grab Rail  
Not Available

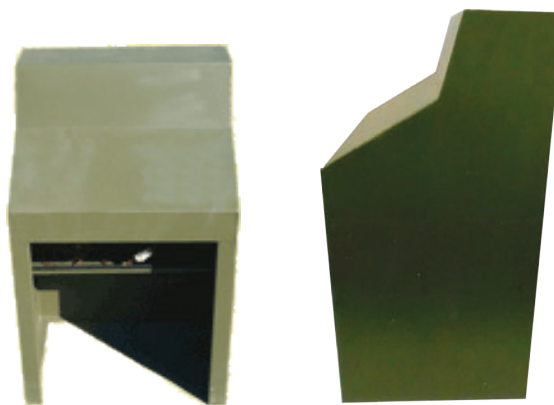

### Alweld Center Console

32" High  
22" Wide  
17" Deep

A.K.'s Price **\$299.99**

Windshield **\$119.99**

Grab Rail **\$249.99**

### Sea Ark Flat Top Center Console

This is the perfect center console for aluminum boats over 17 feet. It is 38" high, 24" wide and 19" deep.

A.K.'s Price **\$539.99**

(Console Features Storage Tray Underneath)

Windshield **\$129.99**

Grab Rail **\$179.99**

## Marine Accessories

### Lowrance® HOOK-3X

The Lowrance HOOK-3x is a fishfinder that offers proven features at a great value without compromising the quality anglers have come to expect from Lowrance

#### KEY FEATURES

- LED-backlit 3-inch color display with detailed 320 x 240 resolution that's easy to see in full sunlight and from wide viewing angles Broadband Sounder detail easily identifies fish targets, bottom contour, structure detail, bottom hardness, thermoclines and more
- Advanced Signal Processing (ASP) reduces the need to manually adjust settings to see fish, structure and bottom detail more clearly.
- Dual-frequency 83 or 200 kHz operation helps maximize the view beneath your boat
- 83 kHz sonar operation provides up to 60 degrees of conical coverage, which is ideal for displaying largest fish arches and searching large area
- 200 kHz frequency provides up to 20 degrees of conical coverage for enhanced fish-target separation and lure-tracking-ideal for drop-shotting techniques
- Pages button allows the user to quickly switch between 83 kHz and 200 kHz sonar frequency views

A.K.'s price **\$99.99**

### Deluxe Jon Boat Running Light Kit

This is the running light kit that works best with jon boats. It comes complete with stowaway plug-in bow and stern lights, 25 feet of wire, and a three-way switch. The lights may be stowed away when not in use, with a flush-mounted plug remaining mounted. For a dependable lighting system, this is the way to go.

AK's price **\$99.99**

### Jon Boat Bilge Pump Kit

This kit contains everything needed to install a bilge pump in your jon boat. Included is a 500 G.P.H. bilge pump, bilge hose, switch, electrical connectors, wire and an over-the-transom output tube.

AK's price **\$49.99**

### SeaSense® Bilge Pumps

The SeaSense® submersible bilge pumps are tough enough for any bilge. The 600 GPH and 800 GPH use 3/4" hose and the 1100 GPH uses 1-1/8" hose. Meets ABYC specification H-22.

#### Description

600 GPH—**\$15.99** • 800 GPH—**\$22.99** • 1100 GPH—**\$26.99**

- Quick Release Strainer Base for Easy Cleaning
- Stainless Steel Shaft & Mounting Screws
- 30" Tinned Marine Grade Wire Leads
- Universal Mounting Hole Positions
- Impact Resistant ABS Housing
- Certified Flow Rates
- Ignition Protected

### Attwood Sahara Automatic Bilge Pump

This is a 500 gallon per hour pump that can be wired to turn on automatically. It works great when your boat is left in the water overnight, for example. The S-500 has plenty of pumping power for most jobs. Sized for boats up to approx. 17 ft. It requires a three-way switch and a 3/4" hose.

500GPH **\$54.99**

750GPH **\$79.99**

1100GPH **\$89.99**

### SeaSense® Fisherman's Live Bait Aerator

The most versatile aerator pump on the market! For coolers, buckets and livewells. Salt or fresh water. Super strong suction cups. No drilling, no screws. Completely portable. Adjustable spray control and telescopic nozzle height keep bait alive longer.

AK's price **\$23.99**

- Works On Any 12V Power Source
- Impact Resistant ABS Housing
- 30" Marine Grade Tinned Wire
- Telescopes Up To 13-1/4"

### SeaSense® LED Switch Panel

Complete with push-button reset breakers, toggle switches, LED indicator lights and marine grade tinned wire. Panel rating: 12V, 40 amp total. Individual circuit 10 amps. Stainless mounting hardware included. Corrosion-free aluminum panel.

#### MASTER TOOL

### Oarhorns

Our oarhorns by Attwood are the most popular brand we sell. Their 1/2" shaft fits most jon boats.

A.K.'s price **\$7.99 per pair**

**Marine Accessories**

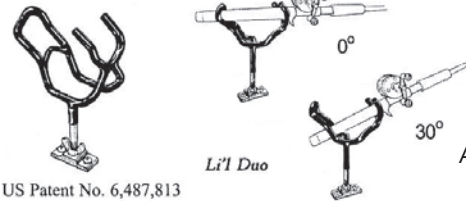

**Driftmaster Rodholders — Holds Rod Securely, Quickest Release Made!**

- Fully Adjustable Side-to-Side
- Solid Steel Construction
- Easily Removed For Storage
- Plated Steel Sterns
- Heavy Duty Plastic Coating
- Stainless Stem And Wingnut
- Available For All 4" Stern Models

**Fight The Fish... Not The Rod Holder!**  
 Driftmaster's one step release sets the hook and frees the rod in one easy motion. That means fewer missed strikes!

**Will Special Order and Pro Series Rod Holders**

US Patent No. 6,487,813

A.K.'s Price **\$19.99**

**Pro Series**

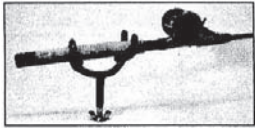

The choice among saltwater and freshwater anglers. Built wider to hold larger rod handles. All Pro series holders have 1/2" diameter stems and fit only Pro series bases.

**Li'l Pro Series**

Just the right size for panfish but tough enough to handle a "big un." All Li'l Pro series holders have 3/8" diameter stems and fit only Li'l Pro series bases.

Everything you need in a rodholder. Adjustable rodholders only give you two effective fishing positions and they can break, sending your expensive equipment to the bottom of the lake. The Duo and Li'l duo give you the most effective rod angles and it will not break...ever! Holds rod tip at 0° with handle in top loop of 30° when handle is in bottom loop. Comes standard with stainless steel stem & wingnut.

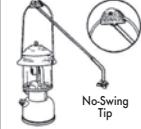

**Li'l Pro Pro—**  
 Holds rod tip in horizontal position for fishing straight down.

Li'l Pro—5° angle keeps long pole tips out of the water.  
 A.K.'s Price **\$13.99**

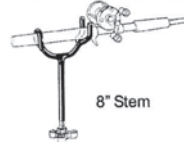

**Rod Rester**  
 • Avoid tangled lines and broken tips  
 • Secure rod in vertical position  
 • Attaches to any Pro or Li'l Pro stem.  
 A.K.'s Price **\$12.99**

**Lantern Holder**  
 • Fits any Pro base  
 • Plated steel  
 • Holds lantern over water or in boat  
 A.K.'s Price **\$26.99**

**Longstem—**  
 All Rod Holders are available with 8" stem. Not available on Lean-mean rodholder.

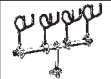

A.K.'s Price **\$19.99**

**Li'l Troller**  
 Hold rod at 45° trolling angle. A closed rear loop grips rod handle securely when experiencing slack line or rough water.

US Patent No. 6,487,813  
 A.K.'s Price **\$19.99**

• T-Bar adjust left to right and locks in place  
 • Rodholders adjust vertically and left to right  
 Includes: 200-B, 7/8" Round T-Bar with 10" locking stem, 214-B bases (rod holders optional)

A.K.'s Price  
 Two rod system **\$47.99**  
 Four rod system **\$64.99**

**Driftmaster Bases — A Base For Every Mounting Situation**

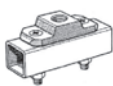

- Machined From Solid Aluminum (Except For SSRB-0 & SSRB-1)
- Remain Attached To Boat While Holders Are Easily Removed
- No Sharp Edges To Fray Lines
- Stainless Hardware Included With Clamp Bases Only. Sold Separately For Other Bases

**Star Base**

Li'l Pro—Fits 2" or wider flat surface. Mounts with three 1/4" dia. screws or bolts.  
 A.K.'s Price **\$5.99**

**Flat Base**

Li'l Pro—Fits 1" or wider flat surface. Ideal for pontoon rails. Mounts with two 3/16" bolts.  
 A.K.'s Price **\$5.99**

**V Round Rail Base**

Li'l Pro—Fits any size round rail or curved surface. Mounts with two 3/16" bolts.  
 A.K.'s Price **\$5.99**

**Square Rail Clamp Base**

Li'l Pro—Fits up to 1/4" Square Rails.  
 A.K.'s Price **\$7.99**

**Flush Base**

Li'l Pro—Base surface is only 3/16" above mounting surface for a low profile look. Mounts with two 1/4" screws.  
 A.K.'s Price **\$7.99**

**Side Mount Base**

Li'l Pro—Fits Jon boat gunnels where vertical holes can't be drilled. Can be bent in vice for difficult mounting angles. Mounts with two 1/4" screws or bolts.  
 A.K.'s Price **\$5.99**

**Round Rail Clamp Base**

7/8" Rails  
 1" Rails  
 Li'l Pro—Rod can be adjusted to any angle by turning base on rail then tightening clamp wing nut.  
 A.K.'s Price **\$7.99**

**Universal Clamp Base**

Li'l Pro—Clamps to docks, war eagle and jon boat gunnels and round rails. Opens to 1 7/8".  
 A.K.'s Price **\$12.99**

### Deluxe Bimini Top

These deluxe folding tops are the perfect refuge from a blazing summer sun. Made of heavy-duty white 14 oz. marine vinyl with denim backing that features an all weather finish. They come complete with tubing, straps, and hardware. They do an excellent job on jon boats. The tops have three bows and are 54" and 60" high and offer 6 feet of coverage. These tops are available in five sizes to fit most boats (measure the beam to determine the size). The color of the top is white and includes the boot.

- 54" to 60" **\$289.99**
- 61" to 66" **\$289.99**
- 67" to 72" **\$299.99**
- 73" to 78" **\$299.99**
- 79" to 84" **\$309.99**

### Economy Bimini Top

This two bow economy top is made of 11 oz. gray duck canvas. It is 42" high and provides 5' 6" of coverage. This does not include the boot.

- 53" to 62" **\$199.99**
- 63" to 73" **\$199.99**

### Sunbrella Bimini Tops

This is the perfect top for most aluminum or fiberglass center console boats. Constructed of 9.25oz Sunbrella 100% woven acrylic, this cover resists water, mildew, rot, sun and fading. Aluminum framing with all mounting hardware, these tops include the boot, and the colors available are toast, pacific blue, or burgundy. These covers fit Xpress, Carolina Skiff, etc. and Roughneck, Sea Ark, Alumacraft, etc.

- 67" to 72" **\$399.99**
- 79" to 84" **\$419.99**
- 73" to 78" **\$409.99**
- 91" to 96" **\$439.99**
- 85" to 90" **\$419.99**

Available in 46", 54", 60" Height

#### Extra long Sunbrella tops

This top provides 8ft. of coverage for more protection from the elements. 8ft. covers are \$100.00 more than 6ft. covers

**Also available in camouflage with black frame \$20.00 up charge**

## Product Profiles

Alweld started out with an idea to build the toughest aluminum boat on the market, with their guiding principle. Never allow the compromise of quality for quantity. Alweld is family owned and now in it's second generation of leadership. That guiding principle, and the original philosophy of boat building are still there. Better than it needs to be. In 30 years of business, we've been true to that principle and it's reflected in the loyalty of our customers and the boats that they've used for years. When you contact the staff at Alweld Boats, you are not talking to a salesperson, you are talking to a family member with a devoted interest in the company and because of that, in your satisfaction. AK McCallum Co. began selling Alweld boats in 2010. This line quickly rose to become one of our top selling boats due to the quality workmanship, tough durability, and very reasonable pricing. Alweld expanded their line to introduce the marsh series, which has become the best value that we have found. The marsh boats feature all-welded hulls with spray-in liners, and aluminum flooring. They are wired from bow to stern for a trolling motor and includes a welded on trolling motor mount. The running lights and some storage are standard and the hulls come as flat or modified vees. AK McCallum Co. offers over 50 different models from 16 to 18 foot with tiller steer, side or center console models to choose from. Please compare Alweld before you purchase a Jon boat.

Creek Boat is a privately owned company whose talented owner builds his boats with pride. Creek Boat has been in the boat building business since 1983 and builds one and two man Roto Molded fishing boats. These boats are designed to be used with foot pedal steering along with electric trolling motors. Especially popular with sportsmen who frequent swamps while hunting and fishing, these versatile boats also work great in ponds and creeks for panfishing.

A.K. McCallum Co. has proudly sold Creeks Boats since 1985.

[www.creekboats.com](http://www.creekboats.com)

Family owned and operated, Xpress Boats has been building quality aluminum boats in Arkansas since 1966. Starting out in a little schoolhouse in Friendship, Arkansas, Xpress Boats built the first all welded all aluminum boat. Xpress Boats discovered an untapped market in the boating industry and began to make a name for itself.

It was in the late 80's when Xpress Boats transformed the aluminum boat with the creation of the Hyper-Lift® Hull. The first of its kind, this padded hull raised the bar on the performance, durability and style of the aluminum boat. This was truly a defining moment for Xpress Boats. Now boaters had the durability and strength of aluminum with the performance and style that had only been found on a fiberglass boat.

Through the years Xpress experienced tremendous growth, and in 2000 moved its headquarters to Hot Springs, Arkansas. Today, Xpress offers more choices and more value with the expanded Hyper-Lift® Series and the price friendly Super Value Series, Silver Series and Xplorer Series.

[www.xpressboats.com](http://www.xpressboats.com)

Alumacraft Boat Co. has been in business since 1946. Alumacraft riveted boats generally give the consumer more features for the money than other brands, such as heavier gauge of aluminum, higher sides, etc. They maintain an excellent reputation for having a higher quality boat at a reasonable price. They also hold up to rigorous demands over the years, especially the 10' through 16' riveted models.

We consider Alumacraft welded hulls to be some of the strongest built in the industry. Their heavy-duty rib structure needs to be considered when you are dealing with carrying heavy loads.

One of the best sellers over the years is model 1236. This is a 12ft. boat with a 36" bottom and a 55" beam. Another popular boat with Flounder giggers is the double wide 16 ft. with an open interior and large forward deck.

A.K. McCallum Co. has been selling Alumacraft Boats since 1980 and has continued to be one of their largest Jon Boat Dealers every year. We are proud of our association with Alumacraft Boat Co.

Sea Ark Boat Co. has been operating and building boats under the Sea Ark name since 1993. Sea Ark was previously known as the Monark Boat Co., a privately owned company.

Sea Ark boats are recognized mainly for their super jon boat series. Their 20' and 24' jons with the 95" beam, 72" bottom width are extremely popular for recreational and commercial use. Duck hunters, striper fishermen, and hunting/fishing guides love these boats.

Sea Ark boats can be ordered with various options to meet nearly every demand. Ordering and delivery time on Sea Ark is lengthy (sometimes up to 90 days) so you need to place your order before the season arrives.

A.K. McCallum Co. was one of the first Sea Ark dealers and has been one of their top dealers annually. We're proud to offer Sea Ark boats in our line-up each year.

Tohatsu has been building outboard motors since 1956 and has gained world-wide reputation in over 30 countries for their reliability. You may also recognize outboards marketed by Tohatsu in the name of Nissan Outboards.

Originally designed for Japanese commercial fishermen, Tohatsu Outboards have been put to the ultimate test for decades—harsh ocean conditions and hours of running time. Tohatsu was brought to our attention by demands for this motor from NC Coastal Fishermen, another pretty tough group of fishermen. An interesting note to Tohatsu's toughness, is that their 2.5 HP still holds the world record as the smallest outboard ever to cross the Atlantic Ocean.

Tohatsu builds four-stroke and the TLDI (two-stroke, low pressure, fuel injection system) motors. In 2014, Tohatsu introduced the four-stroke 40 and 50 horsepower motors. Since adding Tohatsu to our line-up, Tohatsu Motor sales have exceeded all sales projections. In 2014, Tohatsu began offering a five-year factory warranty. This demonstrates the confidence in their reliability. AK McCallum Co. has just been named as one of the top 25 dealers in the United States. AK McCallum Co. is proud to clamp a Tohatsu Motor on your transom.

Yamaha's goal is simple: to make the most dependable and best performing outboard motors in the world. For over 40 years Yamaha has been building motors and was the top choice in over 140 countries across the globe before arriving in the United States.

Yamaha's meticulous attention to details, state of the art technology, quality control and dealer support network are some of the reasons why boaters more than ever demand Yamaha outboards as their power choice. "When you want the Best" is the slogan that Yamaha uses and makes every effort to back up.

A.K. McCallum Co. has joined forces with Yamaha and has been greatly impressed with the quality and performance with every delivery we've made. Warranty problems are virtually non-existent and our service men after attending Yamaha Technical Training Schools intend on keeping it that way.

A.K. McCallum Co. is proud to install Yamaha motors on all our boats as part of an assembled package or as a replacement power source for your current boat.

In business since 1961, Lowe Boat Co. was originally owned and operated by the Lowe family. The Lowe family sold the company to Outboard Marine Corporation and today is currently owned and operated by Brunswick Marine.

Lowe Boats enjoy a very good reputation here in NC which is well deserved. Lowe's riveted hulls offer excellent quality workmanship, great performance on the water especially the modified Vee Hulls, and boaters love the live wells. With Lowe's reasonable pricing and great resale value Lowe continues to be an industry leader.

Lowe Boat Co. builds a complete line of Aluminum boats featuring Pontoons, V-Hulls, Bass Boats, and Aluminum Jon Boats. We only offer their Aluminum Jon-Boat line.

Lowe's most popular boat in NC is the 14' and 16' Big Jon Series. In NC, the highest number of registered 14' Jon Boats is Lowe's 14' Big Jons. These are the boats you will see everywhere in the coastal waters of NC and the larger lakes and rivers.

A.K. McCallum Co. has sold Lowe boats since 1982.
